

Sunset, History + Crystals Evening Hike!

Tuesday 15th October

A dazzling sunset, amazing views, ancient history and a healing crystal ritual...

A stunning guided evening hike, we start at The Olive, passing by the beautiful beach of Cala Llonga and onto a secret pathway through the hillside and up to the clifftops surrounding the bay. Upon reaching the summit, we find the remains of ancient Bronze age stone huts and a mysterious old temple, used for thousands of years for ceremonies and rites.

From here, you can see across the island, and here we stop to experience the majestic setting of the sun and join in a healing crystal ritual to give thanks to Mother Earth. Afterwards enjoy your sunset picnic, courtesy of The Olive... a delicious artisan panini and a craft beer or organic soda. Heading back down the coastal pathway we follow the bright flame oranges of the sky and look down onto the twinkling lights of Cala Llonga below.

This beautiful and memorable experience is just 75 euro per person, all welcome!
